

80% OF DUST AND DIRT IN YOUR BUILDING WALKS IN THROUGH THE FRONT DOOR!

Stop Dirt In Its Tracks With Mat Rental Service From Packerland Rent-A-Mat, Inc.

Your Professional Floor Mat Team

Why floor mats work

- Walk-off mats are specifically designed to attract dirt, grit, dust, sand, liquids, and other abrasive particles through the brushing action of the surface pile.
- Regular cleaning and exchange ensures constant effectiveness.
- Dirt from shoes is transferred to the walk-off mat without wiping.

How floor mat rental service works

- Our representatives will survey your needs and select the correct size and type of surface material to stop your specific tracking problem, while blending style and colors with your décor.
- Walk-off mats are placed at entrances, work and shop doors, spillage areas, counters, and high traffic wear areas.
- The mats are rented to you and exchanged by a Packerland Route Service Representative on a predetermined schedule based on your needs.

Benefits of a regularly scheduled floor mat service

- Reduces daily cleaning costs by substantially reducing tracked-in soil. Time required to clean floors is generally cut up to 33%.
- Floors remain clean and brighter in appearance between cleanings.
- Reduces the necessity of refinishing hard floors and carpet cleaning generally by half, which results in substantial savings to you.
- The life span of flooring surfaces is extended, reducing expensive replacement costs.
- Minimizes safety hazards from wet and slippery floors. Our turn-key system is worry free. No need to supervise; we do it for you.
- No investment; a reasonable monthly service fee is all you spend.
- We provide flexibility to suit your changing needs.
